ALX SICAV – SIF

A PLATFORM FOR INDEPENDENT MANAGERS

As part of our investment solutions, Alaluz offers a unique investment platform for those managers and advisors willing to concentrate on their core business of portfolio management and distribution. By using ALX SICAV-SIF, portfolio managers and advisors gain access to Alaluz Capital expertise and network.

MAIN CHARACTERISTICS

- ALX SICAV-SIF is a Specialized Investment Fund (SIF) domiciled in Luxembourg and designed to meet global fund industry needs.
- Lower set-up and running costs compared to a standalone investment vehicle.
- World-wide recognition as robust investment fund and European Passport.
- Top service providers: Central administration, auditor, legal advisor, custodian/depositary, AML/CTF, transfer and paying agent.
- Highly experienced Board of Directors, multidisciplinary and diversity (nationalities and gender).
- Segregated and ringfenced compartments; each compartment is protected against other compartment liabilities by the SIF Law of 2007.
- Authorized by the *Commission de Surveillance du Secteur Financier* (CSSF), Luxembourg regulator.

ALALUZ CAPITAL

WHY ALX SICAV-SIF

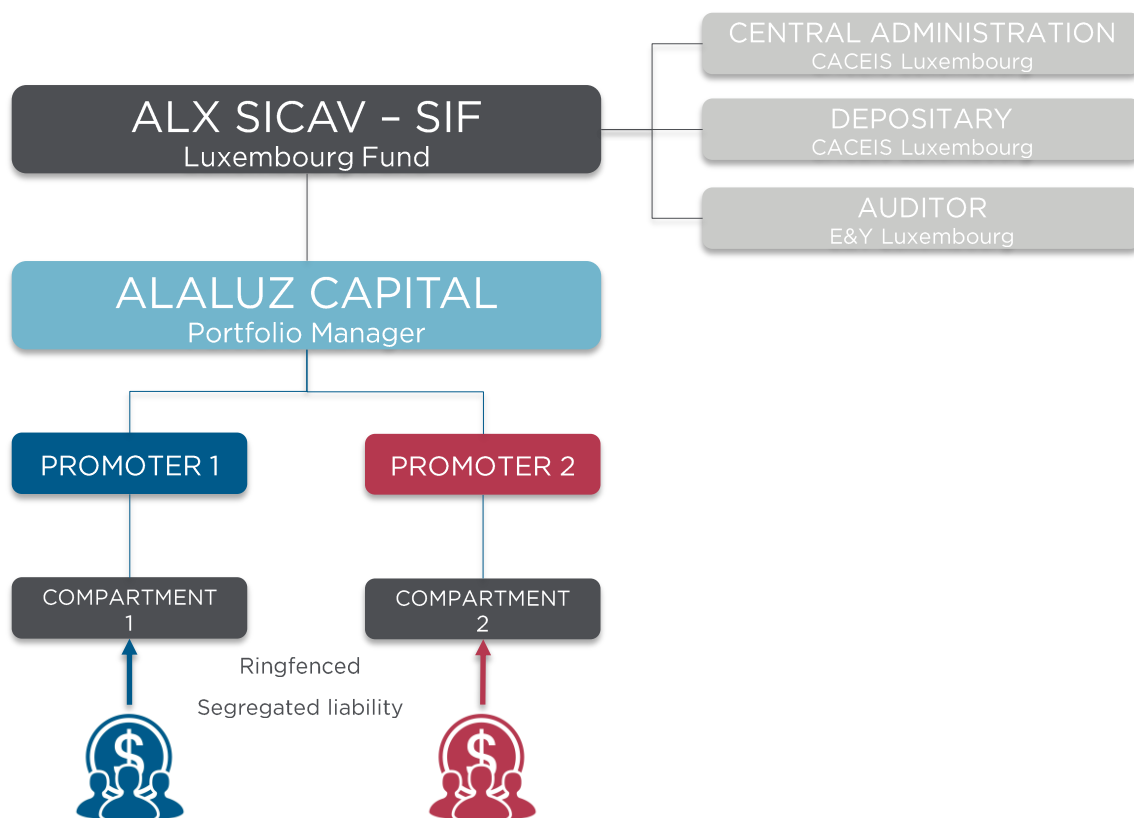

We have a widespread experience in managing and administering diverse investment vehicles under different formats (UCITS, SIF, RAIF, Private Equity, Real Estate).

The platform has been specifically designed to help develop new and existing projects. We are also promoters and understand what a solid project needs: low costs and a speed time-to-market solution to light up.

Once a fund reaches certain size and track record, the promoter may require having its own standalone fund. ALX allows a migration to another structure, if required, in an agile and cost-effective way.

We design the fund tailor-made to the promoter's demands, and we walk with him during the fund's life, to help him achieve his goals.

Each compartment has its own and exclusive ISIN code
